CONTENTS VOL. 99, 1988

Research Papers

Prediction of time variation in water and chloride profiles in a soil subject to cropping and annual application of sewage sludge
S. Otama and T. Kuboi (Ibaraki, Japan) 1
Hydrogeochemistry of chloride in an upland catchment in mid-Wales
B. Reynolds (Gwynedd, North Wales, U.K.) and A.B. Pomeroy (Townsville, Qld., Australia) 19
Simulation of runoff and nitrate leaching from an agricultural district in Sweden
P.-E. Jansson and R. Andersson (Uppsala, Sweden) 33
Interpreting injection well tests in an alluvial aquifer
K.R. Rushton (Birmingham, U.K.) and N.K. Srivastava (Ahmedabad, India) 49
Nonlinear, discrete flood event models, 1. Bayesian estimation of parameters
B.C. Bates (Wembley, W.A., Australia) and L.R. Townley (Nedlands, W.A., Australia) 61
Nonlinear, discrete flood event models, 2. Assessment of statistical nonlinearity
B.C. Bates (Wembley, W.A., Australia) 77
Nonlinear, discrete flood event models, 3. Analysis of prediction uncertainty
B.C. Bates (Wembley, W.A., Australia) and L.R. Townley (Nedlands, W.A., Australia) 91
Estimating aquifer recharge and parameters from water level observations
A. Das Gupta and G.N. Paudyal (Bangkok, Thailand) 103
Paleohydrology of the Nubian Aquifer northeast of the Blue Nile, near Khartoum, Sudan
Y.A.S. Haggaz (Salalah, Oman) and K.M. Kheirallah (Khartoum, Sudan). 117
Determination of dissolved CO_2 in upland streamwater
C. Neal (Wallingford, U.K.) 127
A single-well tracer technique for evaluating aquifer parameters, I. Theoretical work
Y. Bachmat (Jerusalem, Israel), S. Mandel and M. Bugayevski (Rehovot, Israel) . . . 143
Towards a delimitation of southwestern Nigeria into hydrological regions O.O. Ogunkoya (Ile–Ife, Nigeria) 165
Rainfall variations in the Galilee (Israel), II. Variations in the temporal distribution between 1931–1960 and 1951–1980
H. Kutiel (Haifa, Israel). 179
Runoff generation in a plough-drained peat bog in southern Scotland
J.S. David (Lisbon, Portugal) and D.C. Ledger (Edinburgh, U.K.) 187
Sediment delivery in a semi-arid coastal stream
H.H. Chang and D.A. Stow (San Diego, Calif., U.S.A.). 201
Air and water flow, I. Horizontal flow with an arbitrary flux boundary condition
G.C. Sander (Brisbane, Qld., Australia), J.-Y. Parlange (Ithaca, N.Y., U.S.A.) and W.L. Hogarth (Brisbane, Qld., Australia) 215
Air and water flow, II. Gravitational flow with an arbitrary flux boundary condition
G.C. Sander (Brisbane, Qld., Australia), J.-Y. Parlange (Ithaca, N.Y., U.S.A.) and W.L. Hogarth (Brisbane, Qld., U.S.A.). 225
Storm response of the karstic carbonate aquifer of southcentral Kentucky
J.W. Hess (Las Vegas, Nev., U.S.A.) and W.B. White (University Park, Pa., U.S.A.) . . 235
The effect of logging and regeneration on groundwater, streamflow and stream salinity in the southern forest of Western Australia
H. Borg (Leederville, W.A., Australia), G.L. Stoneman (Dwellingup, W.A., Australia) and C.G. Ward (Manjimup, W.A., Australia) 253

Location-invariant plotting positions for PWM estimation of the parameters of the GEV distribution
C.D. Sinclair and M.I. Ahmad (Fife, U.K.) 271
Estimation of bare soil evaporation from airborne measurements
J.V. Soarès, R. Bernard, O. Taconet, D. Vidal-Madjar and A. Weill (Issy-les-Moulineaux, France) 281
A linear root water uptake model
Rama Prasad (Bangalore, India) 297
Vertical variability of soil properties in a small watershed
L.R. Ahuja, J.W. Naney, R.D. Williams and J.D. Ross (Durant, Okla., U.S.A.). 307
Repercussions of a CO_2 doubling on the water cycle and on the water balance — A case study for Belgium
F. Bultot, A. Coppens, G.L. Dupriez, D. Gellens and F. Meulenberghs (Uccle-Brussels, Belgium) 319
Validity of the environmental chloride method for recharge evaluation of coastal aquifers, India
B.S. Sukhija, D.V. Reddy, P. Nagabhushanam and R. Chand (Hyderabad, India) . . . 349

Announcement 367
